**NOTICE TO DP WORLD AUSTRALIA CUSTOMERS:  
AMENDED ACCESS CHARGE DP WORLD AUSTRALIA'S WEST SWANSON TERMINAL FROM 1  
JANUARY 2020**

Customers are advised that from 1 January 2020, DP World Australia will be increasing the Access Charge at our West Swanson Terminal for road and rail operators, and will also be adjusting a number of ancillary charges.

The Access Charge will be \$98.00 per container (exclusive of GST) and will apply to all full containers received or delivered via road or rail at West Swanson Terminal. Full containers received or delivered via road will be charged to the road carrier through the 1-Stop Vehicle Booking System. Full containers received or delivered via rail will be charged to the rail operator as a separate item on rail invoices.

In addition, we will adjust a number of Container Terminal Ancillary Charges that will apply at West Swanson Terminal from 1 January 2020. These include:

- VBS Administration Fee – electronic
- Stack Run In & Out Fee
- Direct Return of Empty Booking Fee
- Import Storage Charges

Details of changes to Container Terminal Ancillary Charges are available at [customer.dpworld.com.au/](http://customer.dpworld.com.au/).

We recognise the importance of working closely with operators as part of implementing new or increased charges which is why we are providing extended notice, of 60 days, to assist with this transition.

Additionally, as part of Chain of Responsibility legislation compliance, our West Swanson Terminal has installed vehicle weighing infrastructure to provide a weigh-in-motion service for full import containers delivered by road. These load measurement devices are intended to ensure compliance with axle loading requirements of vehicles using public roads. The fee recovery for the weighing service is included in the amended Access Charge.

Ongoing access to West Swanson Terminal will be conditional on payment of the charges as per our conditions.

Our industry is experiencing rising costs in the most dynamic and competitive market conditions in decades. We are tackling this across a range of fronts including delivery of further efficiency and productivity initiatives and in recent months a workforce restructure. The continuation of the rebalancing of revenue recovery from waterside to landside is necessary to adequately account for landside costs, and fundamental to a sustainable future in this challenging market.

Yours faithfully
